Profile

Innovative entrepreneur and owner of NovaPixel, a company specializing in coding education and productivity solutions. Proven success in leading diverse projects and driving the upcoming launch of a cutting-edge future study app.

Employment History

Owner, CodeMaster, Online

JULY 2023

Internships

Owner, NovaPixel, Online

JULY 2024

I served as the owner of NovaPixel, a small company with a diverse portfolio of projects. Within this role, I led a team that developed educational initiatives focused on teaching coding and created productivity tools designed to enhance everyday life. Our commitment to innovation and improvement led to the imminent release of a future study app.

As the owner of NovaPixel, I harnessed my entrepreneurial spirit to guide the company through various projects, demonstrating my ability to manage a wide range of endeavors. During my tenure, we achieved significant milestones, such as public engagement, they liked our tutorials, and our productivity apps and expected more from us which led us continue to make projects with same effort.

Courses

Python, at BrightChamps

OCTOBER 2022
